Lewis,

please review

Joe,

Please to meet with you and Elizabeth today. Per our discussion, Northrop will submit the following to EPA by Friday March 16, 2012:

(a) Letter of Explanation signed by you describing why Northrop chose not disclose any data collected as part of the 2002/3 Deep Source Investigation including CPT, groundwater, and soil bore (DB) data. The letter shall be to accompany a Tech Memo originally requested on 1/26/2012 (see attached) describing the 2002/3 DSI.

The DSI Tech Memo shall include the original work plan, all data packages, and any data analysis performed by Northrop Grumman or consultant(s) to Northrop Grumman, and all work products produced since the investigation whereby these data were not included e.g. cross section, modeling, monitoring reports, and progress reports, etc. The letter of Explanation shall also describe any and all modeling efforts associated with Benchmark from 1987 to present, date the data were provided to CDM and why CDM and Northrop choose not to include DSI related data in regional modeling efforts to date. In addition, please describe why permanent wells were not installed.
